QUEUE!!

Posted 4 months, 8 days ago () by ★ maws

Sorry my queue is down!!! I posted a while back (like a few days/a week ago) that I'm updating it and sending out wips!! I gotta reorganize it in a way that matters!!

My friend also suggested I upload wip cover images so imma go through and do that!!

I post better updates in my server (link in bio)!! I've been really busy dealing w my bfs surgery, my queue and paying off bills and rent!! However!!! My queue is getting smaller and smaller (thank u for the patience on that all my clients have been genuinely astounding)

But I wanted to post here like I did in my server. Everyone on my customs queue should havv wips by the 1st

My ref/sketchpage and fb queue wips by the 10th

And everyone else (doodles + headshots + chibis) wips by the 15th!!

Thank all of u for being extremely considerate when dealing w me!!! I've been unmedicated for my severe adhd up until recently and they are still taking my dosage higher bc they think it's too low. I spent months having a psychotic episode and it was rlly hard to tell what's real and what wasn't! This past year has been incredibly...concerning to say the least and when the info drops on that I hope you are able to understand. Again thank u to everyone being insanely patient w me, many of my clients are genuinely some of the kindest ppl out there esp when it comes to my mental health and my chronic issues!!!

Sorry that got a lil heavy but I'm grateful and I'm so excited to be done w my queue!!
